## WIRELESS TELECOMMUNICATIONS BUREAU REVISES 800 MHZ BAND RECONFIGURATION NEGOTIATION TIMETABLE FOR WAVE 4, PHASE 1 LICENSEES

Voluntary Negotiation Period to Begin on July 3, 2006

WT Docket No. 02-55

Pursuant to the *Report and Order* in this docket,<sup>1</sup> the 800 MHz Transition Administrator (TA) has established a schedule for negotiation of band reconfiguration by 800 MHz licensees in each of the fifty-five National Public Safety Planning Advisory Committee (NPSPAC) regions. The Wireless Bureau approved the TA's band reconfiguration schedule on March 11, 2005.<sup>2</sup> Under the schedule, the voluntary negotiation period for Wave 4, Phase 1 (Channel 1-120) licensees is currently scheduled to begin on April 3, 2006.<sup>3</sup> However, the Commission has noted that the timing of Wave 4 could be affected by negotiations between the United States and Canada and Mexico regarding reconfiguration of 800 MHz channels in border areas.<sup>4</sup> Because the United States is engaged in ongoing discussions with both the Mexican and Canadian governments concerning 800 MHz border area issues, we are moving the start date for Wave 4, Phase 1 band reconfiguration from April 3, 2006, to July 3, 2006.<sup>5</sup> We believe this adjustment to the schedule will further the 800 MHz band reconfiguration process by allowing more time for resolution of international border issues before Wave 4, Phase 1 licensees begin their negotiations. We emphasize that this action does not affect the 36-month timeline for completion of 800 MHz rebanding as provided in the *800 MHz R&O*.

<sup>1</sup> See Improving Public Safety Communications in the 800 MHz Band, *Report and Order*, WT Docket No. 02-55, 19 FCC Rcd 14969 (2004) (*Report and Order*). See also *Supplemental Order and Order on Reconsideration*, WT Docket No. 02-55, 19 FCC Rcd 25120 (2004) (*Supplemental Order*). <sup>4</sup> See *Report and Order*, 19 FCC Rcd at 15061 ¶¶ 175-176.

<sup>5</sup> Accordingly, the Wave 1, Phase 1 voluntary negotiation period will run from July 3, 2006 to October 2, 2006; the mandatory negotiation period will run from October 3, 2006 to January 2, 2007; and the 30 working day mediation period will commence on January 3, 2007. We also postpone the start of the freeze on filing of applications for Wave 4 non-NPSPAC channels until June 3, 2006.

Action by the Chief, Public Safety and Critical Infrastructure Division, Wireless Telecommunications Bureau.
